Bryan Eka Santoso

Web Developer & Undergraduate at Institut Sains dan Teknologi Terpadu Surabaya

Surabaya, Jawa Timur, Indonesia

Ringkasan

Hello! My name is Bryan Eka Santoso, and I am a Web Developer based in Surabaya, Indonesia. I graduated from SMK Krian 1 Sidoarjo, specializing in Software Engineering. Currently, I am continuing my studies in Informatics at the Institut Sains dan Teknologi Terpadu Surabaya.

―――――

Pengalaman

PT Indo Leaves
Information Technology
Juni 2025 - Present (1 bulan)

Designed and developed the company profile website for PT Indo Leaves, an international exporter specializing in Moringa powder. The website, created together with my colleague, features a fully responsive and user-friendly experience across all devices. The clean, modern, and professional interface reflects the company's global outlook and commitment to quality products.

Institut Sains dan Teknologi Terpadu Surabaya (iSTTS)
Junior Laboratory Assistant
Februari 2025 - Present (5 bulan)
Surabaya, Jawa Timur, Indonesia

I was responsible for delivering tutorial sessions on several topics before the practicum began. I also created quiz questions for discussion sessions and evaluated the assignments and work submitted by students participating in the practicum.

PT Multi Manao Indonesia
IT Support Specialist
Oktober 2022 - Juni 2023 (9 bulan)
Gresik, Jawa Timur, Indonesia

I worked as part of a team to develop a data management website. My role was as a Front-End Web Developer, responsible for creating a user-friendly and responsive website interface. I also designed the database structure for

data storage in the web application. In addition, I repaired several unused company computers to make them operational again. I also configured the network switches within the company to ensure that the network and connected devices function properly and are well-organized.
